SCMPE Crash Course for May 2023

Message

SCMPE is one of the most fearful subjects in CA curriculum as it is very different from what we do in other subjects. It requires business experience and a lot of common knowledge. There is also a very big part played by case studies, which are real business situations.

If a student does not have time to study our Full Regular Course, then this course will give a student enough knowledge and practice that a student can clear his / her exams with flying colours. With this objective in mind, we introduce a crash course for SCMPE. This will be held Face to Face in Andheri with recording also available from 1st December. 2022.

REVIEWS OF OUR LAST CRASH COURSE DONE IN AUGUST

Khushi Sanghavi:

I have taken SCMPE course. I would say, Teaching is excellent. Anuj sir makes your concepts very clear, gives logic behind almost everything, and teaches you practical approach towards subject. He gives you time to try the sums yourself which actually prepares you very well for exams. Plus, the books are designed very nicely and meticulously keeping in mind everything that students may need before the exam from star rating to summary of every different question. There may be no need for any extra notes on your own. Books give you full coverage.

Thank You sir for actually building my confidence in this subject.
